

## Be Sweet

Roger Montgomery

My granddaughter gave me some candy

I thought that was sweet  
We were having a good time  
Sharing what we had to eat.

She was real pleased  
Happy and upbeat  
She was full of herself  
And candy so sweet.

I enjoyed the fellowship  
Grandkids are hard to beat  
This was a good memory  
As she gave me candy to eat.

She gave me more candy  
Her little heart wanted me to eat  
How could I turn it down  
She was sweeter than sweet.

But I laughed to myself  
At this wonderful treat  
I was the one who paid for it  
The candy she gave me to eat.

I probably wouldn't have bought it  
It wouldn't have meant as much you see  
But I truly enjoyed this act of love  
And the candy she shared with me.

It was the love that was in it  
That made it a special treat  
Money can not buy love  
Only buy something to eat.

My granddaughter had no money  
But I thought it so sweet  
What she had she gladly shared  
She gave me her candy to eat.

it is with God  
He's a Father that can't be beat  
He's created everything we have  
Everything we have to eat.

And He loves for us to share  
With Him some of our treats  
It's because He loves us so much  
Not because He needs to eat.

We can give Him our candy  
And when we finally meet  
We will realize more clearly  
He gave us the candy we eat.

When we need something to cheer us up  
Make bitter things sweet  
We can turn to God's word  
He gives us food to eat.

When we see life's sorrows  
We need something to eat  
We can feed on His word  
Like candy so sweet.

He sends us His Spirit  
He guides our wobbly feet  
He gives us everything we have  
He makes bitter things sweet.

He gives good things to His children  
Fellowships with us as we read  
We can return the love He gave  
Give back some candy to eat.

God gives unreservedly  
What He gives we can keep  
Or give some back to Him  
Or others that we meet.

A little child shall lead them  
An example hard to beat  
In a world of hate and bitterness  
Just remember to be sweet.
