

## **Clouds**

Roger Montgomery

Clouds may try to move in  
Clouding a bright summer day  
But the sun is still shining  
And time will move the clouds away.

People have asked for a sign  
And God has provided one today  
A Light in a world of darkness  
Someone He has called The Way.

Heaven is higher than the earth  
And God's thoughts are too  
Creation was not complete  
That's why God created you.

Heaven is higher than the earth  
But clouds are part of the view  
God's Light shining down from Heaven  
Is God's gift to you.

We try to see some hope  
As clouds obscure our view  
But soon the clouds will have to part  
And God's Light will come shining through.

Clouds are only temporary  
They will pass over and go out of view  
But God's love will last forever  
And He sends all His love to you.
